ASCM Supply Chain Technology Certificate Online Course

ASCM Supply Chain Technology Certificate Overview

Are you looking for a way to advance your career? Stand out in a competitive job market with the new ASCM Supply Chain Technology Certificate. This certificate gives you an understanding of how to implement the latest technologies in your supply chain organization to reduce costs, boost performance and achieve a more sustainable supply chain. You'll learn about the newest supply chain technologies through case studies from globally recognized organizations.

The self-paced, online program includes 20 hours of education and a comprehensive final exam. The online course is in addition to the self-paced online program. After passing the online exam, learners will receive a certificate and digital badge. The classes cover the complete online ASCM Supply Chain Technology Certificate, facilitate discussions among students and enable them to clarify topics related to the actual class.

The benefits of the ASCM Supply Chain Technology Certificate Overview are to:
- Accelerate your supply chain career
- Refresh your technology knowledge
- Collect 20 maintenance points for your existing APICS CPIM, CSCP or CLTD Certification

The ASCM Supply Chain Technology Certificate online course is suitable for supply chain professionals:
- Start or restart your ASCM (APICS) supply chain education journey
- As part of Continuing Professional Development (CPD) collect 20 maintenance points for your existing APICS CPIM, CSCP or CLTD Certifications
- A stepping stone for those inspired to enroll in:
  - ✓ Certified in Planning and Inventory Management (CPIM), Certified Supply Chain Professional (CSCP), Certified in Logistics, Transportation and Distribution (CLTD)

ASCM Supply Chain Technology Certificate covers the following modules:
Module 1: Blockchain
