Certified Supply Chain Professional (CSCP) Online Self-Study

The CSCP Online Self-Study is designed for candidates unable to attend weekly classes due to geographic or schedule constraints.

CSCP Online Self-Study is supported by email and Zoom sessions by Instructors registered with the APICS instructor development programme.

The Certified Supply Chain Professional program has been designed by APICS to provide the skills necessary to understand and manage increasingly complex Supply Chain Networks from a practitioner's perspective.

Building on your experience and previous SCM qualifications, achieving the APICS CSCP designation, will enhance and consolidate your supply chain management knowledge and expertise and provide you with an internationally recognised supply chain certification.

The CSCP program is structured in eight modules examined in one 3.5 hour exam.

Module 1: Supply Chains, Demand Management, and Forecasting
Module 2: Global Supply Chain Networks
Module 3: Sourcing Products and Services
Module 4: Internal Operations and Inventory

Module 5: Forward and Reverse Logistics
Module 6: Supply Chain Relationships
Module 7: Supply Chain Risk
Module 8: Optimization, Sustainability and Technology
