

Certified in Transformation for Supply Chain (CTSC) Online Course

Are you ready to take your supply chain career to the next level? Become a certified transformation leader with the new CTSC credential!

Supply chain transformation can help your company achieve a competitive edge, improve your financial performance, and provide better customer service. It increases collaboration between different departments, suppliers, and partners, leading to better communication and alignment of business objectives throughout your supply chain.

The Certified in Transformation for Supply Chain (CTSC) covers frameworks, strategies, processes, tools and technologies applied to managing an end-to-end supply chain transformation and leverages components of globally recognized industry standards, including the ASCM SCOR Digital Standard (DS), Enterprise Standards for Sustainability and the Digital Capabilities Model (DCM) to:

- Identify risks and opportunities, and select the appropriate frameworks, models and approaches to effect transformation
- Apply systems thinking to develop, analyze and validate concept alternatives for transformation
- Manage skills, roles, responsibilities and infrastructure needed for successful supply chain transformation
- Identify tools and technologies to enable effective supply chain transformation
- Identify and implement strategies for reinforcing and replicating improvements

Earning the CTSC demonstrates your expertise in supply chain strategy, proves your ability to lead a major transformation project and sets you apart from the competition—paving the way for new professional opportunities.

CTSC covers the following modules:

- Module 1: Supply Chain Transformation Overview
- Module 2: Preparing for Supply Chain Transformation
- Module 3: Executing Supply Chain Transformation
- Module 4: Review of Supply Chain Transformation

We offer the CTSC as an online course, all courses will be led by APICS registered Instructors. CTSC is over seven and a half weeks (two online classes per week).
